

Treasure Baskets

Role of Adult:

Encourage your baby to explore the different objects and their textures. While your baby is playing, talk about objects and respond to your baby's cues by using simple language such as "ooh, that makes a good noise" or "that's very shiny" or "how soft."

Your baby is learning...

- To explore using their senses
- To make connections about the world in which they live

At home you could...

Create a treasure basket using objects from around the home, i.e. a sponge, a wooden spoon, a washing up brush, ribbon etc.
